## **Understanding our products and documents**

You should carefully consider the amount of time you need to review the information and documentation with which you have been presented, and ensure you understand your commitments under the agreement. You should also consider if it is advisable for you to have someone you know to help you make your decision. This is particularly important if you have any health issues, difficulty in understanding information, or there have been any recent life events that could affect your ability to fully understand the information and documentation. Please advise us if this is the case and we can then proceed with your requirements in the most appropriate way.

## **Affordability**

You should assess the monthly payments you are required to make throughout the agreement and ensure you are able to meet these and other obligations you already have without suffering undue hardship. If you are aware of any future events that will affect your ability to meet these payments, you should ensure the finance provider is informed immediately.

Your credit rating could be adversely affected if you do not make payments when due which could make it harder or more expensive for you to access finance facilities in the future.

## Appendix - Products Offered

---

### Hire Purchase (HP)

#### Ownership options

- You have an option to own the vehicle at the end of the agreement.
- You are the registered keeper but the finance company remains the owner until the finance is paid in full.
- In some circumstances, if you have problems with the vehicle, you may be able to refer these issues to the finance company.

#### Restrictions/potential extra costs

There are usually no mileage restrictions though you will need to check your agreement. Excess mileage charges will not apply. You can not sell the vehicle until the finance has been paid off in full. You will need to service and insure the vehicle in line with the terms of the agreement.

#### Payment and equity

Flexible terms may allow you to finance the vehicle over a longer period than leasing and PCP. By increasing your deposit you will lower the monthly payment. As the amount borrowed is paid off in equal instalments during the term of the

agreement, it is more likely you will have a higher amount of equity than a PCP agreement for the same term. However, if you decide to sell the vehicle before the end of the agreement, you will have to pay the agreement in full (less an interest rebate) which will reduce the amount of equity you have in the vehicle and particularly in the early stages of the agreement could mean the vehicle is worth less than the amount of finance outstanding.
